

Our Services

Our wide range of services are tailored to the individual needs and preferences of each resident. The Taft Home offers three levels of service. Service levels are determined together with the resident, family members, and supporting healthcare professionals. Service level determination is made upon admission, evaluated at 30 days after move-in, and re-evaluated quarterly thereafter and as needed, if condition changes. Level of service is based on the frequency and intensity of services provided from minimal or occasional need for service, to substantial ongoing need for services.

These services may be categorized as follows (please note this is a partial list and is used for illustrative purposes only)
