

***Serving older and disabled
adults in downtown
Portland since 1960***

**Respite and Short Stay at
The Taft Home.**

Taking care of an older or disabled family member or friend is a full-time job. It requires hard work, patience and good health. Like any job, it requires time for a break.

Our program offers you peace of mind by providing for the needs of your loved-one when you cannot be there yourself. Our guests stay in one of our furnished apartments, and receive the personal care and attention of our 24-hour professional staff with RN supervision. Additionally, guests may participate in our social and wellness programs.
